Virar, Mumbai.

FULL STACK DEVELOPER

I'm a full-stack developer focused on building clean, functional, and scalable web applications. I work primarily with React, Node.js, Express, MongoDB, and I've also built multiple Web3-integrated projects using Thirdweb and IPFS. I like figuring things out, even if I don't know them yet. If something is new, I naturally end up exploring it until it feels familiar. I enjoy picking up ideas on the go, experimenting, and improving bit by bit it's just how I function.

SKILLS

React.js	Node.js, Express.js	Git, GitHub
Tailwind CSS, Responsive UI	REST APIs, MongoDB, Mongoose	Postman
Context API, State management	JWT Auth, Sessions, File Uploads	

PROJECTS

Google Drive Clone (File System Manager)	GitHub
<ul style="list-style-type: none">Built a folder/file system with nested directories, metadata, Trash/restore, and basic search.Implemented file uploads, previews, and version history using Node.js, Express, and MongoDB.Added sharing permissions (view/edit) and real-time updates for file/folder changes.	
BlockFunding (Decentralized Crowdfunding Platform)	GitHub Live Demo
<ul style="list-style-type: none">Built campaign creation with media uploads to IPFS.Added tier-based donations, status logic, and IPFS-backed comments.Integrated Thirdweb smart-contract actions (create, donate, fetch).Designed creator vs supporter UI for editing tiers and direct donations.	
Weather App (JavaScript / API Integration)	GitHub Live Demo
<ul style="list-style-type: none">Fetches real-time weather data using OpenWeather API with async/await for non-blocking performanceDisplays temperature, humidity, wind speed, and weather conditions with dynamic iconsAuto-detects user location using Geolocation API with graceful fallback for manual searchResponsive UI optimized for mobile & desktop with clean minimalist layoutError handling for invalid cities, network failures, and API limitsCaches last searched result to improve user experience and reduce repeated API callsWeather background changes dynamically based on current conditions (sunny, rainy, cloudy, etc.)	

EDUCATION & CERTIFICATIONS

Bachelor of Engineering Computer science	Dec 2021 - May-2025
CGPA: 7.5	
HSC (12th grade)	June 2020 - May-2021
percentage: 88%	
Frontend Development Certification — SkillUp (Simplilearn)	
Certificate Link: view
